

Gloucester House  
Together We Thrive

# Gloucester House

Welcome to Gloucester House! We are a boys' boarding house for boarders and flexi boarders who are in Years 7-13. We run an inclusive house where we are driven to provide excellent pastoral care. Boarders' physical, social, emotional, intellectual, moral and spiritual wellbeing take centre stage. Within the house we believe in offering a place where pupils have the opportunity to *Grow, Enjoy, Belong and Be Safe*.

Let me introduce myself, my name is Jason Maynard and I have been Head of Gloucester House for two years. Before taking on the role as Head of House, I worked at the school for a couple of years as a weekend activities instructor and some years prior to this I was the Deputy Head of Kent House. I have also worked in a variety of boarding and non-boarding roles in other educational settings. I am passionate about giving our boys the opportunity to thrive and become well-rounded individuals, ready to find their niche in the wider world. I live in a flat within the house with my wife Kezia and our one year old son Jax.

The house is supported by a fantastic team of staff who have a wealth of knowledge and experience:

**Chib Ijezie – Deputy Head of House:** I'm a Sports & Exercise Science Graduate from London with a keen love for different sports. My passion is football which I am actively involved in at School. My hobbies include basketball, fitness and invasion games. Working in Gloucester House is something that means a lot to me as I work closely with the boys to help them grow into responsible young adults

**George O'Shea – Non Teaching House Tutor:** I'm a Sports & Exercise Graduate from London, and I have also completed my MSc in Exercise Physiology. Sport is my passion. My favourite sport is football which I am involved in coaching at school, and I am also involved in the Duke of Edinburgh programme. My hobbies include travel, trekking and photography to name a few. I have worked in Gloucester for over a year and enjoy passing on my knowledge to the pupils to help them make the right decisions in life.

**Marcia Stone – House Matron:** I have been at Royal Alexandra and Albert school for five years, four of them as Matron for Gloucester House. I have twenty-eight years of experience working with children and young people, in various settings. I am a mother of boys, and I like to keep active, hiking, gardening and going to the gym.

We also have a number of teaching tutors that support in the House.
